

Lifting Polyurethanes to a Whole New Level™

Since our inception in 1964, NCFI Polyurethanes have been manufacturing and supplying quality polyurethane chemical systems to the construction industry.

Our TerraThane™ line of geo-technical and construction products provide cost saving benefits and alternatives when making repairs to concrete slab sections and other concrete and masonry structures.

Available TerraThane™ Systems and Services:

- Concrete lifting foams
- Void fill foams
- Polyurea
- Cavity fill foams
- Crack and joint sealants
- Coatings
- Graco equipment and parts
- Custom rigged trailers
