

## **NCFI Certified Roofing Contractor Program Requirements for Certification**

**TIER ONE<sup>SM</sup>** roofing contractors will be represented to the public by NCFI as having demonstrated competence with the application of spray polyurethane foam and coating restoration roofing systems, troubleshooting of spray polyurethane foam and coating application equipment, experience, knowledge of roofing characteristics and building codes, and financial stability.

To be considered an NCFI Polyurethanes TIER ONE Certified Roofing Applicator, you will need to meet the following requirements:

Requirements:

1. Equipment Training/Knowledge:
  - a. Contractor has attended NCFI Advanced Equipment School or has demonstrated to NCFI's satisfaction that they have acquired sufficient knowledge to safely operate, maintain, and troubleshoot spray foam and coating equipment.
  - b. Contractor has reviewed NCFI's Product Stewardship Manual and returned its signature confirmation form.
  - c. Contractor has completed CPI's High Pressure SPF Chemical Health and Safety Training and submit a copy of their Recognition of Completion.
2. Experience: Contractor must have applied at least 100,000 ft<sup>2</sup> of spray foam or coating restoration roofing systems within the last five years with demonstrated proficiency.
3. Purchase History: Contractor must be purchasing at least \$25,000 of roofing chemicals per year from NCFI.
4. Financial Stability: Contractor must demonstrate financial stability. Criteria may include credit history, audited financial statements, etc.
5. Insurance: Contractor must maintain a minimum of \$1 million of business liability insurance.
6. Licensing: Contractor must maintain proper licensing as required by the state(s) in which Contractor operates.
7. Demonstration of Roofing Knowledge: Contractor must install a demonstration spray polyurethane foam or coating restoration roof(s), having an area of approximately 10,000 ft<sup>2</sup> in accordance to NCFI specifications. Roof will be inspected by NCFI to assure compliance.
